**Denomination:** \$5

**Year of Issue:** 2022

**Mintage:** 2,000

**Country of Issue:** Solomon Islands

### The Coin

Dinosaurs of North America feature some of the most widely known herbivorous giants. Made in 2oz of pure silver legal tender this coin shows a formidable *Stegosaurus* slowly lumbering forward while deftly moving his spiked tail. A special collectible not for the faint of heart!

The armoured *Stegosaurus* lived in the late Jurassic period across Western North America. A herbivore, the bony plates along its back were embedded in the skin and stood vertically. Even though large and slow moving its powerful hindquarters allowed it to move its spiked tail nimbly!
